EDUCATION

Korea University

Undergraduate Student

- Bachelor of Cyber Defense

Seoul, South Korea

March 2024 -

Daejeon Daeshin High School

High School, Graduated

Daejeon, South Korea

March 2021 - February 2024

WORK EXPERIENCE

HashLock, Smart Contract Auditor | Self-Employed

Auditing Solidity, Vyper, and other Web3 smart contracts for high-severity vulnerabilities.

Remote

August 2025 - Present

ACTIVITIES

Participant, Web3 Audit Contests

Identified impactful vulnerabilities across numerous Web3 auditing contests [[Audit portfolio](#)]

Remote

December 2024 - Ongoing

Member, CyKor

Hacking club at Korea University

Remote

September 2024 - Ongoing

Organizer and Author, CyKor CTF 2025

Authored a Web3 challenge ("Multi Chain Vault")

Remote

December 2025

Organizer and Author, CyKor 2025 Spring Recruit CTF

Authored two Web3 Challenges [[chal-1](#)] [[chal-2](#)]

Seoul, South Korea

March 2025

Participant, KISA Hunting Master 1st Cohort

Fuzzing and Vulnerability Detection for Software

Seoul, South Korea

May - June 2024

Participant, Stealien SSL Program 3rd Cohort

Web-Based O/1-Day Semiautomation Analysis and Plugin Development

Seoul, South Korea

October 2023 - February 2024

Participant, KITRI WhiteHat School 1st Cohort

Automation and Enhancement of Exploit Generation Using NLP

Seoul, South Korea

September 2023 - May 2024

SPEACH	<u>KISA Hunting Master 2nd Cohort — Special Lecture</u> Getting Started with Smart-Contract Audits Contest	Seoul, South Korea Aug 2025
	<u>Blockchain Valley — Security Team Workshop</u> Web3 Security: Smart-Contract Threats & Hands-on Labs	Seoul, South Korea March – June 2025
	<u>27th Hacking Camp by Poc Security</u> Hacking with AI: Try Web Hacking with Reinforcement Learning	Seoul, South Korea August 2023

DISCLOSED
VULNS

	Web3, Immunefi	
	<u>Toucan Protocol</u>	
	• [Medium Severity] Private Report • [Medium Severity] Private Report • [Low Severity] Private Report	
	System & Software	
	<u>Anthropic Claude Code</u>	
	• [High Severity] Reported; Remediation in Progress	
	Apple	
	• CoreMedia Playback – Denial of Service (CVE-2025-24184)	
	NASA	
	• CryptoLib – Heap Overflow (CVE-2025-30216) [Report]	
	<u>Bandiview</u>	
	• JXR File Parser – Denial of Service (CVE-2024-45870) • PSD File Parser – Denial of Service (CVE-2024-45871) • PSD File Parser – Stack Buffer Overflow (CVE-2024-45872)	
	Others	
	• hauri virobot – DLL Hijacking (KVE-2024-0395) • sga viruschaser – DLL Hijacking (KVE-2024-0410) • PDFio TTF parser – Denial of Service (CVE-2024-42358) [Report]	
	Web	
	Wordpress Plugin	
	• wpView Plugins – Stored XSS (CVE-2023-33213) • Simple File List Plugin – Stored XSS (CVE-2023-39924) • Fast Custom Social Share by CodeBard Plugin – Stored XSS (CVE-2023-48329) • Icons Font Loader Plugins – Arbitrary File Upload (CVE-2024-24714)	

AWARD	CTF (Capture The Flag)	
	• 10th, LakeCTF Quals 24-25 (with CyKor)	2024
	• 50th, SECCON CTF 13 Quals (with CyKor)	2024
	• Finalist, CODEGATE Junior	2023
	• Finalist, White Hat Contests Junior	2023
	• Finalist, WACON Junior	2023
	• Finalist, CCE (Cyber Conflict Exercise) Junior	2023

- Finalist, CCE (Cyber Conflict Exercise) Junior 2023
- 1st, Chungcheong Youth Hacking Defense Competition 2022
- Finalist, CCE (Cyber Conflict Exercise) Junior 2022
- 4th, KOSPO Service Security Competition (Youth Division) 2022

Development & Algorithms

- 3rd, e-ICON World Contest 2022
- 1st, Cyber Security Hackathon 2024
- 2nd, Korea Code Fair Hackathon 2022

Artificial Intelligence

- 1st, Kyungwoon, Intelligent Mobility SW Competition (AI) 2023
 - 4th, K-ICT Data Creator Camp 2022
 - 1st, AI Autonomous Exploration Performance Contest 2022
-
